

MSP FEE-FOR-SERVICE PAYMENT ANALYSIS

1994/95 - 1998/99

Prepared by: Information & Analysis Branch

**MSP FEE-FOR-SERVICE PAYMENT ANALYSIS
1994/95 – 1998/99**

ADDENDUM

Please note the header on pages 4 to 90 should read:

**FEE-FOR-SERVICE PAYMENT ANALYSIS BY FEE ITEM 1994/95 –
1998/99 (EXCLUDING OUT OF PROVINCE SERVICES)**

FEE-FOR-SERVICE PAYMENT ANALYSIS

1994/95 - 1998/99

PREFACE

The **Fee-For-Service Payment Analysis** summarizes services and amounts paid by fee item for each fiscal year. At the back of the report, two tables are provided highlighting the top 50 fee items by paid services and gross payment.

claims deemed to be the responsibility of the Insurance Corporation of British Columbia (ICBC) and for services provided to Canadian residents from outside BC. Because of the different criteria used to prepare this analysis, the totals in this analysis will not correspond to the **MSP Financial Statements**.

DESCRIPTION OF DATA

The Medical Services Plan (MSP) pays practitioners on both fee-for-service and alternative payment bases. Fee-for-Service claims are arranged into three categories:

1. MSP subscriber, British Columbia practitioner;
2. MSP subscriber, non-British Columbia practitioner (out of province); and
3. non-British Columbia patient, British Columbia practitioner (reciprocal).

The **Fee-For-Service Payment Analysis** summarizes only services provided by practitioners on a fee-for-service basis in category one. The MSP recovers payments for medical and supplementary benefit

Physicians may receive payments from other agencies for services not covered by MSP. These payments are not processed by MSP and are not included in this analysis.

Services are reported for the fiscal year in which the services are performed (date-of-service orientation). The data, therefore, reflect the actual number of services provided in each fiscal year. Paid amount reflects payments made on or before September 30, 1999. Each year has a different number of payment periods and is not strictly comparable. Since the report is run six months after the end of the fiscal year, a small number of claims may still not have been paid at the time of printing and the following year's report may have revised figures.

Paid amounts *include* Northern and Isolation Allowance (a premium on each claim if the practitioner works in isolated communities), rollback (an amount recovered by MSP as a result of over-utilization of the negotiated budget) and any retroactive payments.

Paid amounts *exclude* interest (on payments owed which are more than 60 days overdue), and any patient visit charges (a charge per visit for some types of supplementary benefits. From 1992/93 to 1993/94, \$5.00; from 1994/95 to 1995/96, \$7.50; and effective 1996/97, \$10.00).

Fee item descriptions have been included to improve the report's ease of use but researchers are strongly urged to refer to the **MSP Payment Schedule** for a more detailed description of fee items.

In 1994/95, the method of calculating MSP recoveries from ICBC for medical claims was changed from formula-based to claim-based. For medical claims, this report excludes ICBC claims for 1994/95 - 1997/98. Supplementary benefit claims have always been recovered using a claim-based method. For supplementary benefit claims, this report excludes ICBC claims for 1993/94 - 1997/98.

In January 1995, the British Columbia Medical Association Tariff Committee Fee Guide Restructuring Initiative was introduced by the BCMA Tariff Committee

to better reflect current clinical practice. All Sections were invited to participate in this initiative by providing changes and updates to their sectional payment schedule. Not all Sections opted to participate in the restructuring of the fee schedule. Work on this initiative continued and the new revised Medical Services Commission Payment Schedule was introduced on April 1, 1997. As a result of this initiative, the Sections restructuring their payment schedule may have:

- new fee items
- deleted fee items
- fee items that are deleted and replaced by one or more new fee items, and
- adjusted payment rates for one or more fee items.

In this publication, no attempts are made to translate the new fee items to old fee items, and are reported as billed to the Medical Services Plan.

Medical FFS claims were prorated in 1998/1999, in the amount of \$52 Million (includes an estimate for NIA proration). Proration is applied to ensure that the cost of medical claims remain within the "available amount".

A proration rate (i.e. reduction) of 4.4 percent was applied to claims with a date of service between April 1 and November 30, 1998, and a rate of 3.3 percent was applied to claims between December 1, 1998 and January 31, 1999. No proration was applied to claims

between February 1 and March 31, 1999.

Although \$52 Million was collected through proration, final reconciliation for 1998/1999 indicated that only a proration amount of \$28.8 Million had been required for claims to remain within the available amount.

Therefore, in January, 2000, the balance (approximately \$23 Million) was returned to all BCMA practitioners who were prorated for services rendered between April 1, 1998 and January 31, 1999. This ensured that the Ministry paid BCMA doctors the total available amount that was negotiated with the BCMA for the 1998/1999 fiscal year.

The retroactive payment of \$23 Million is not included in this report.

An evaluation form is provided at the back of this manual for your comments and suggestions. Additional questions, or suggestions regarding this report may be directed to:

Glossary

Community Health Council

A geographical grouping encompassing one or more Local Health Areas (LHAs).

Community Health Services Societies

A geographical grouping encompassing one or more Local Health Areas (LHAs) or one or more Community Health Councils (CHCs).

Fee Item

A numeric code used to identify each service provided by a practitioner. Each fee item has an associated "fee" that is paid to a practitioner for providing the service. The Medical Services Commission approves fee items and their corresponding fees.

Health Region

A geographical grouping encompassing one or more Local Health Areas (LHA). Health Region 099 contains all postal codes that are unknown or unassigned to a LHA.

Interest on Paid Amounts

Interest is paid on "paid amounts" that were paid more than 60 days after the claim submission. This applies to both Medical Practitioners and Supplementary Practitioners. Interest is not paid on Northern and Isolation Allowance or Rollbacks.

Local Health Area (LHA)

A geographical grouping roughly corresponding to a school district. In some cases, LHA boundaries may split census and enumeration areas. Each LHA belongs to one Health Region, Regional Health Board and Community Health Council. In practitioner based tables, LHA 888 refers to practitioners or payees with billing addresses in Canada, but outside of British Columbia. LHA 999 refers to practitioners or payees with billing addresses outside of Canada.

Medical Practitioners

Practitioners who provide medical services. See also Supplementary Benefit Practitioners.

Medical Services

All medically required visits to general practitioners and specialists, including laboratory services and diagnostic procedures, X-ray and ultrasound examinations. Medical services are partially funded by the federal government. The remaining

amount of the bill is funded from provincial sources.

Most Recent Specialty Code

Indicates the specialty of a medical or supplementary benefit practitioner. This code is used to place a practitioner into a single specialty only, although the practitioner may be registered in many specialties. This specialty is the most recent specialty in which a practitioner registered. However, when a new practitioner, with more than one specialty with the same graduation dates moves to British Columbia, the Most Recent Specialty may be derived randomly.

Northern and Isolation Allowance (NIA)

An amount paid to an approved practitioner who provides services in an isolated area. The NIA amount is a percentage of the amount paid to the practitioner on each payment run, and is paid at the time of service. NIA varies according to the degree of isolation, from 6.2 per cent to 20 per cent (as of May, 1994). Interest is not paid on NIA.

Out of Province Claims

Out of Province claims include four separate cases:

- A situation where a Canadian visitor in British Columbia receives medical service in British Columbia and that service is initially paid for by MSP. MSP later bills the patient's home province or territory for services rendered, under reciprocal payment agreements.
- A situation where a British Columbia resident receives services in another territory or province, (other than Quebec) and has his/her services paid for by the appropriate agency in that province or territory. The agency later bills MSP for those services performed under reciprocal payment agreements.
- A situation like (2) above, yet the subscriber personally pays for services received. He/she later bills MSP.
- A situation where a British Columbia resident receives services outside Canada or in Quebec. MSP reimburses at British Columbia rates.

Paid Amount

The amount paid by the Medical Services Plan to the practitioner for services rendered.

Patient Visit Charge

A charge per visit for some types of supplementary benefit groups (Chiropractors, Naturopaths, Physical Therapists, Podiatrists, and Massage Therapists). The PVC amount has ranged from \$5 in 1992/93 & 1993/94; \$7.50 from 1994/95 to 1995/96; and \$10 effective 1996/97. The PVC amount is not usually included in sums of paid amount because MSP is not responsible for the payment.

P.E.O.P.L.E. (23) Model

A population estimate run by the Ministry of Finance. Estimates are generated based on the number of BC Hydro connections (updated at each census).

Population

Refers to all residents of British Columbia.

Regional Health Board

A geographical grouping encompassing one or more Local Health Area (LHA). Regional Health Board 099 contains all postal codes that are unknown or unassigned to a LHA.

Retroactive Payments

Payments made at a new fee level for services rendered in the past. Usually this results from services rendered between the expiry of an existing fee agreement and the ratification of a new agreement.

Rollback Amounts

Amounts recovered by MSP as a result of over-utilization of the negotiated budget.

Service Code

Indicates the type of service that is performed by a practitioner. Each service code has one or more fee items associated with it. However, each fee item is associated with one service code only.

Specialists

Medical practitioners whose specialty is not General Practice.

Subscriber

A person registered with British Columbia's Medical Services Plan (MSP).

Supplementary Benefit Practitioners

Practitioners who provide supplementary services, for which the federal government does not provide funding (eg. Massage Therapy, Naturopathy, etc.). The full amount of the bill is funded from provincial sources. See also Medical Practitioners.

Supplementary Services

Services funded by MSP including Chiropractic, Massage Therapy, Naturopathy, Optometry, Physical Therapy and Podiatry.

Readers' Comments

The Information & Analysis Branch welcomes your comments and suggestions on the quality and usefulness of this publication. Your feedback will help us improve future editions. Please take a few minutes to complete and return this evaluation form.

1. What organisation do you work for?

2. What position do you hold in that organisation?

3. How clear are the footnotes and introduction to this guide?

Very Clear Clear Unclear Very Unclear

4. How often do you anticipate you will consult this publication during a one-year period?

Several times a day Several times a week Once a week Once a month Once a year

5. Does this publication help you make health-care policy decisions? ☐ No ☐ Yes

If yes, provide an example:

6. Compared to other publications prepared by this branch, is the quality of this publication:

Much Better Better Similar Worse Much Worse

7. Are there any other comments you would like us to consider regarding the usefulness and quality of this publication?

8. Can we contact you regarding this evaluation? ☐ No ☐ Yes

If yes, please provide your name: _____

Please provide your telephone number: _____

Please send this evaluation form by facsimile to: (250) 952-0979

Thank you for helping us improve our publication.
